I would like the task force members to consider changing the boundaries for district one.

I live on Lake at 27th avenue which means I'm part of the Richmond. Yet, I am in district two???

I receive the district one newsletter as it pertains to my interests and needs, and I would like

to be able to vote for the supervisor that truly represents the area I live in.

Is this an instance of gerrymandering as I've been told? This should not be allowed in SF.

I hope the task force will consider my request.

Paulette Jonas
